When international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- 1 A * following a place name indicates that the place is coterminous with a MCD, and "MCD" indicates that the place is also a MCD; the MCD name is also shown.
- 2 This map shows tribal census tract boundaries and numbers within the subject entity; nontribal census tract boundaries are shown outside of the subject entity. (Note that the subject entity may be a tribal census tract or a tribal census tract defined within a federally recognized American Indian reservation or off-reservation trust land for the purpose of providing data based on an off-reservation trust land.) Tribal census tracts are shown within the subject entity or off-reservation trust lands cross state or county boundaries, the same tribal census tract number may be assigned on both sides of the boundary, and, if the boundary is constituted by a river, the number may be repeated.
- 3 A following a block number indicates that the block number is repeated elsewhere in the block.
